

Dear Colleague,

PERMICRO SpA, a Microfinance provider in Turin, Italy, is looking to join a project consortium as a partner (not as a lead applicant).

It was born in Torino but operates in the whole of Italy. It is the first and the only Italian microcredit company that professionally manages all the different phases in a micro company project: scouting, preliminary inquiry, risk assumption, follow up. The company is sponsored by two social Foundations and belongs to the Italian and international network of microfinance organizations whose objective is to offer microcredit as a tool for local development and an opportunity for individual and familiar growth for people with temporary economic difficulties. Despite PerMicro has never applied to the Erasmus for Young Entrepreneurs Call for Proposals, it was involved in many National and European projects, especially in the field of entrepreneurship education, training and support services of business start-up, for women, young people and migrants

If you are an organisation intending to submit an application in Erasmus for Young Entrepreneurs Call for Proposals and would like a Italian partner with these motivations and experience, please contact Vincenzo De Luca (vinc.deluca@gmail.com).

Please circulate this Partner Search to any contacts who may be interested. Many thanks.

Kind Regards,

Vincenzo De Luca
